

Summer 2010

Since June 1st, after a hard day at the beach, LaVanta Residents come home to relax around the newly completed LaVanta Club House Swimming Pool.

Twenty-five meters of pure blue seemingly spill over the entire south-facing infinity edge of the LaVanta Club House Swimming Pool, directly over the shimmering turquoise vastness of the Mediterranean Sea, to offer residents and their guests, unique sweeping views of an endless horizon.

LaVanta is a high-end gated resort community conceived by Turkey's premier resort developer Mediterra, a subsidiary of Dolphin Capital Investors. Situated amongst native pine & olive trees, perched above the picturesque sea-side town of historic Kalkan on the South West Coast of Turkey, the development offers a selection of superb properties that define the very best of carefree Mediterranean living.

The Club House will commence operation in early September 2010.

The LaVanta Show House is open for daily viewing by appointment only. For information on owning a piece of LaVanta, please contact our Sales Executives Istanbul or Kalkan:
