

**Panorama Residences receive award by “Homes Overseas Russian Awards”**

April 2010

Panorama Residences ( [www.panorama-residences.com](http://www.panorama-residences.com) ), an Aristo Signature project, has been awarded the silver award in the best villas project category by the **Homes Overseas Russian Awards 2010** ([www.homesoverseas.ru/awards/eng/results/](http://www.homesoverseas.ru/awards/eng/results/)).

The luxurious three and four bedroom villas at Panorama Residences are nestled away along the magnificent coastline of Pissouri village and are designed by Dr. Demetri Porphyrrios. These magnificent residences sit tranquilly on a breathtaking panoramic site designed to accentuate the indoor and outdoor lifestyle of Cyprus.

Understated and discreet, Panorama Residences were conceived under the testament of complete privacy and luxury. The close relationship of man and nature, so predominant in Porphyrrios’ design ethos, is shown to great effect in the design of each villa. His thoughtful interplay of materials creates a beautiful yet secluded world in total harmony with the grand setting of white cliffs and warm crystal clear waters of the Mediterranean. The location is as unique as the villas and the village, as unique as any other traditional village in Cyprus.
